

# HAZARDOUS SUBSTANCE MANAGEMENT TRAINING

**These training programmes** address all aspects of managing chemicals / hazardous substances / and dangerous goods in the workplace and on the road. They provide theoretical and practical knowledge of **Managing Hazardous Substance in the Workplace**, and the four courses below give industrial sites the choice of what will best meet their current needs. NZQA Unit Standards are available for some courses but all include site specifics and workplace practices unless public course attendance.

- **Managing Hazardous Substances in the Workplace - US21647**  
(Meets Section 12 & 13 of the Health and Safety in Employment Act 1992)
- **Approved Handler Training – US20645**  
For Test Certification purposes required by the Hazardous Substances and New Organisms Act 1996
- **Consignors Packers/Loaders Training for Land Transport**  
(Meets Section 10.6 of the LTNZ Land Transport Dangerous Goods: Rule 2005)
- **Dangerous Goods Licence Endorsement Training**  
(Meets Section 9.2(1) of the LTNZ Land Transport Dangerous Goods: Rule 2005)

Training can be accommodated either at your workplace or by attending a public training day of your choice
